

## App or website?

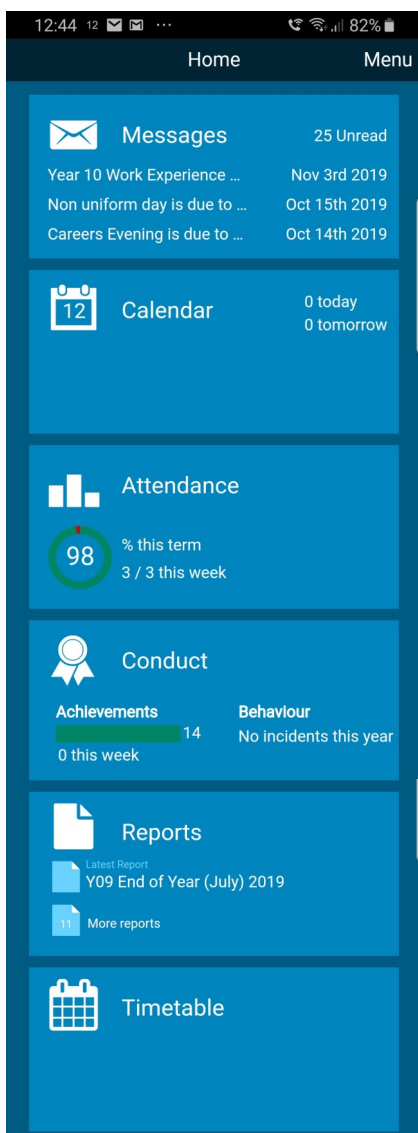

- Once you have registered your account (see separate guide). SIMS Student can be accessed in one of 2 ways:
  - The SIMS Student App is available on Android and iOS devices. Search for and download SIMS Student in the appropriate app store.
  - On other devices (Mac, PC, Laptop, Windows Phone etc.) access [www.sims-student.co.uk](http://www.sims-student.co.uk) (**do not use the link in the invite e-mail—that link is for registering your account only**)

We recommend downloading the app but both the app and website are designed to be intuitive and have a very similar appearance as shown below.

## Logging on

- Either launch the **SIMS Student** app on your mobile device or access **www.sims-student.co.uk** in your web browser.
- Click the provider of the account you used to register. We recommend that you register with your school Office 365 account.
- When prompted, enter the username and password **for your chosen account**. You will be taken to the SIMS Student screens.

The layout of the app and website is slightly different but the information is the same.

### Messages

Reminders and other important messages will appear here. Tap the tile for more details.

### Calendar

Term dates and other important upcoming events. Tap the tile for more details.

### Attendance

Keep track of your attendance for this week and term. Tap the tile for more details.
